## Get Ready to Shine: Introducing Bernat Satin Sparkle!

We are very excited to introduce not one, but two glittering new yarns in this issue of the Bernat newsletter! The first is [Bernat Satin Sparkle](#). We've taken one of your favorite yarns, Bernat Satin, and added the glitz to make any project pop. This worsted-weight yarn is mostly acrylic except for a metallic thread which wraps around the length of the yarn, giving it a beautiful shine from every angle. Bernat Satin Sparkle is perfect for additions to outfits such as shawls and cowls, where its added glimmer will make you sparkle!
